## FR-40-BD USB Fingerprint Reader

(Shown in Bavarian Silver and approximate size)

The **FR-40-BD** is a fixed position USB fingerprint reader. These units are designed to be bolted down. The USB cable exits from the bottom of the case and is passed through a hole cut into the table (or wall). The mounting bolts attach from the bottom side into tapped holes located on the base. These readers utilize heavy duty all Aluminum cases and when mounted, there are no exposed wires or screws. The FR-40 is ideal for high traffic areas where vibration, tampering or theft is a concern.

**Standard Colors:** Flat Black, Bavarian Silver (Powder Coat)

**Material:** Aluminum 6061-T6 case

**Size:** 2.9" x 2.2" x 1.1"

**Weight:** 15 oz

**Software:** Supported by all major Biometric Software providers

**Warranty:** Limited 1 year Warranty

### **Technical:**

AuthenTec EntrePad AES4000 sensor
